

1 Now, let me say too that your districting
2 and redistricting would be simplified. The main problem
3 would be first to lay out your 40 senatorial districts, and
4 then simply divide that senatorial district in half.
5 You have in a sense a composite district with one senator
6 and two delegates.

7 For two years I went through the problem of
8 trying to draw district lines. Let me tell you, it is
9 one of the most difficult questions in public life.

10 Now, let me read several things to you, as I
11 draw toward a conclusion. I am reading from the State
12 Legislature's Progress Reporter, published by the
13 National Municipal League in May of 1966. It says, in
14 the first paragraph, the first two paragraphs:

15 "Sweeping reforms to strengthen State legisla-
16 tures were recommended by the 29th American Assembly on State
17 Legislatures in American Politics held April 28 to May 1
18 at Arden House as part of the National Municipal Leagues
19 five-year State Legislatures Project.
